Sacramento, CA 95812

Subject: City of Santa Paula Request for new base year

Dear Tara,

I would like to extend my thanks and appreciation for all the support you have provided to me regarding solid waste and recycling within the City of Santa Paula.

At this time the City would like to officially request to change the base year 2000-generation study into a new base year. As you are aware, since year 2000, the City has made many improvements to its residential solid waste collection program and is in the process of revising its franchise contract for both commercial haulers. We feel that a new base year calculation would be more representative of what the City has achieved in its solid waste diversion.

If you have any questions please contact me at 805-525-2364. Again, thanks for your continued support.

Sincerely,

Rene Salas
Deputy Public Works Director
